

GENERAL  ELECTRIC

Leader

MODEL CP1-F

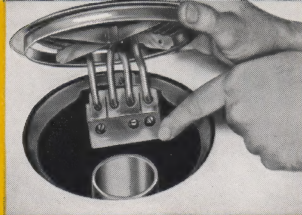

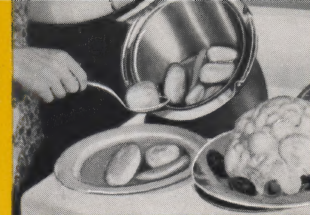

Hi-speed Calrod*—Fast and clean. No faster electric cooking unit sold. Stays clean—spills and boil-overs burn away. Coil length increased for larger heating area, extra speed.

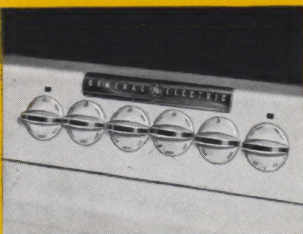

Master Oven—Spacious . . . extra capacity. Open-coil bake unit with even-heat baffle gives perfect results. Open-coil Super Broiler for luscious charcoal-type broiling.

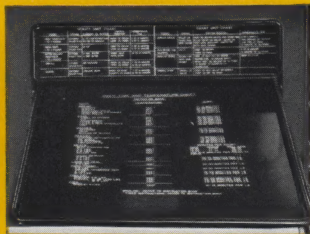

No-Stain Oven Vent—Helps keep your kitchen walls and curtains shining clean. Traps grease and moisture from oven vapors. Easy to remove . . . can be washed like a dish.

Thrift Cooker—Economical meal-planning is easy with the built-in, six-quart, aluminum Thrift Cooker. More than 45 tasty dishes can be cooked on thrifty Lo heat.

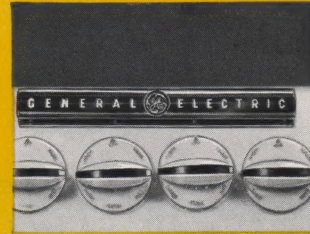

Smooth-action Switches—Gleaming white plastic knobs with bright-chrome trim. Smooth operation gives "jiffy-quick" switch settings. Silver contacts give extra long life, positive action. Easy to see and use.

Time and Temperature Charts—For quick reference while you're cooking. Handy charts give proper cooking times and temperatures for oven and surface cooking. Permanently fired into the enamel.

Efficient Oven Insulation—Heat stays where it should—in the oven. Rockwool and glasswool insulation on six sides keeps your kitchen cool—holds the heat in for efficient, low-cost operation.

Oven Indicator Light—Automatic signal that tells when it's time to bake. Light behind monogram comes on when oven is heating—goes off when proper temperature is reached. Easy to see—tells at a glance.

GENERAL ELECTRIC
